The Syfydrin Trail trail takes in all of the existing summit trail with its fantastic swooping, flowing singletrack, and adds to it by leading you out onto the high open hills with stunning views. It is a long and challenging ride in exposed and remote countryside, so go equipped for any eventuality, including plenty to eat and drink, spares, tools and clothing. Make sure someone knows where you are going and when you expect to be back. It is safer riding with others.

Much of the route is on technical doubletrack, which is used by vehicles, walkers and horse riders. Some of it is used as a waymarked horse riding route. Please ride with due care and consideration of other users. Please leave gates as you find them.
